# CCTAM

## THE CANADIAN CLINICAL TRIALS ASSET MAP

# HOW DOES THE CCTAM BENEFIT CLINICAL TRIALS?

Serves as an essential tool for anyone planning to conduct clinical research in Canada

Enables sponsors of clinical trials to more easily identify clinical research sites and investigators

Positions Canada as an attractive global destination for clinical trials

<b>Ethics Board</b>	<a href="#">Dr. Brian Carlson</a>
<b>Phases of Research</b>	Central
<b>Primary Investigator</b>	II, III, IV
<b>Patient Population</b>	<a href="#">Dr. Jessica Claveau</a> , <a href="#">Dr. Naveen Garg</a>
<b>Description</b>	Adolescent, Adults, African American, Asian, Caucasian, Children, Female, Healthy Volunteers, Male, Seniors, South Asian
	LMC Manna Research is the largest network of fully-owned and integrated clinical research sites in Canada providing Phase I-IV clinical trial services. With specialized vaccine research, and primary care studies.
	LMC Manna Research provides Sponsors, CRO's & ARO's access to one of the largest fully owned and operated clinical research site networks within Canada at 20
	LMC Diabetes primary focus is diabetes, obesity, metabolic and cardiovascular disease. Manna Research is a combination of diseases, but focuses 30% of their effort
	Principle Investigators at each site follow a uniform set of SOPs, conforming to ICH, GCP, and Health Canada Division 5 guidelines. Internal training, fellowship, and certification are all provided.
